SUMMARY

Research professional with over eleven years of experience conducting quantitative and mixed methods research and analysis on public policy, food security, agricultural value chains, and public health.

EDUCATION

Master of International Public Health Dec 2015
The University of Sydney *Sydney, Australia*
Sydney School of Public Health, Faculty of Medicine and Health

Bachelor of Medical Science, Immunobiology Major May 2014
The University of Sydney *Sydney, Australia*
Faculty of Science

PROFESSIONAL EXPERIENCE

Consultant Sep 2026 – present
International Food Policy Research Institute (IFPRI) *Saskatoon, SK, Canada (Remote)*

- Serving as Consultant with IFPRI since Sep 2026, providing project management support.
- Continuing role as the IFPRI-Bangladesh focal point for CGIAR's Scaling for Impact Science Program as part of the Aquatic Solutions Track, a collaboration between IFPRI and WorldFish.
- Providing management oversight for three diagnostic consultancies and studies on digital traceability, hatchery and nursery SOP development, and aquaculture value chain access to finance.
- Coordination, study design, protocol development, and deployment of an upcoming baseline survey of fish farmers across multiple study sites in districts with high levels of fish farming activity in Bangladesh.

Senior Program Manager Sep 2023 – Aug 2026
International Food Policy Research Institute *Dhaka, Bangladesh*

- From Sep 2023 to Aug 2026, served as Senior Program Manager in the Poverty, Gender, and Inclusion (PGI) Unit at the Bangladesh Country Office of the International Food Policy Research Institute (IFPRI), headquartered in Washington, DC, USA.
- Provided research management leadership, as well as conducting quantitative and qualitative research on food systems, agricultural markets, rural development, and public health.
- Concurrently served as the IFPRI-Bangladesh focal point for CGIAR's Scaling for Impact Science Program as part of the Aquatic Solutions Track, a collaboration between IFPRI and WorldFish.
- Performed dual role as Deputy Chief of Party for the USAID-funded Feed the Future Bangladesh Research Activity until January 2025.
- Recent co-authored IFPRI publications:

- Randomized controlled trial (RCT) investigating the effects of discount vouchers on farmers' adoption of disease-free shrimp post-larvae in southern Bangladesh, with colleagues from Michigan State University (Dec 2025).
- Three-round panel assessing the uptake of a software-as-a-service (SaaS) platform among soybean farmers in Maharashtra, India, published in Gates Open Research (Nov 2025).
- An assessment of Bangladesh's agricultural mechanization subsidy program and corresponding policy recommendations (Jul 2025).
- A comprehensive overview of the state of food security and nutrition in Bangladesh (Nov 2024).

- Between September 2022 and December 2024, served as Country Coordinator for CGIAR's Rethinking Food Markets Initiative in Bangladesh, liaising across work packages and interfacing with relevant stakeholders.
  - Conducted a difference-in-differences (DiD) study of the impacts of shrimp cluster farming interventions on productivity and welfare outcomes in southern Bangladesh (Nov 2023–Dec 2024).
  - Performed a scoping review of possible research interventions on shrimp value chains (Jun 2023).
  - Co-published datasets for the baseline and endline surveys on IFPRI's Harvard Dataverse repository.
  - Presented findings from the study at (1) the 32nd International Conference of Agricultural Economists (ICAE) (Aug 2024), and (2) IFPRI RISE (Oct 2024).

Senior Research Analyst Apr 2022 – Aug 2023
Research Analyst Dec 2016 – Mar 2022
International Food Policy Research Institute *Dhaka, Bangladesh*

- Published (as first author) "Shocks and the determinants of resilience: Fish and shrimp value chains in Bangladesh after Covid-19" in Applied Economic Perspectives and Policy (Mar 2023), examining the effects of the Covid-19 pandemic on business continuity and resilience of fish and shrimp value chain actors.
  - Part of a larger study on the impact of Covid-19 on value chains in Bangladesh, Burkina Faso, and Uganda.
  - Presented the study's preliminary findings at (1) the 31st ICAE (Aug 2021), and (2) the 10th Sri Lankan Economic Research Conference (SLERC) (Jan 2022).
- Published several works as part of the Integrated Food Policy Research Program (IFPRP), a World Bank-funded project of the Bangladesh Ministry of Food.
  - Executed the Bangladesh Millers' and Traders' Survey (2018), a nationally representative survey of the rice value chain. Co-authored a discussion paper and two working papers on: (1) estimates of private sector rice stocks, and (2) the impact of price stabilization policy instruments on the rice market.
  - Led a census of public foodgrain storage infrastructure in Bangladesh (2017), assessing existing conditions and generating repair needs estimates for all storage facilities.
  - Co-authored a working paper assessing the magnitude of grain losses (2017) in the Bangladeshi public foodgrain distribution system, using both primary survey and secondary data sources.

Senior Research Associate Jul 2015 – Dec 2016
BRAC James P Grant School of Public Health, BRAC University *Dhaka, Bangladesh*

- Contributed to the equity analysis for a study on ergonomic risk factors for and the prevalence of workplace musculoskeletal disorders among readymade garment factory workers in Bangladesh, published in PLoS ONE.
- Co-authored a systematic review of the prevalence of autism spectrum disorders in South Asia, published in BMC Psychiatry.

- Co-authored a peer-reviewed article on urban-rural and sex differentials in tuberculosis mortality in Bangladesh as part of a study funded by the Global Fund to Fight AIDS, Tuberculosis and Malaria (GFATM).
- Led the WASH-Nutrition correlation study, a UNICEF-funded study investigating the prevalence and factors associated with nutritional outcomes among under-five children in Bangladesh.

TECHNICAL COMPETENCIES

Statistical computing	Stata, R, Python, and SPSS (proficient); PostgreSQL, SAS, and MATLAB (intermediate)
Data visualization	Plotly, Altair, Matplotlib, Seaborn (Python); Shiny (R); Tableau; Power BI
Survey programming	SurveyCTO, Open Data Kit (ODK), KoboToolbox, Qualtrics
Geospatial analysis	GeoPandas, Folium (Python); ggplot, tmap, Leaflet, sf, terra (R); ArcGIS; QGIS
IDEs	Visual Studio Code, Google Colab, PyCharm, RStudio
Typesetting	LaTeX (MiKTeX, Overleaf, R Markdown)
Qualitative coding	NVivo
Reference management	Zotero, Mendeley; natbib, BibLaTeX (LaTeX)
Agentic coding	Claude Code
Languages	English (fluent), Bengali (native), French (intermediate)
